

Applications

For controlling starters, contactors, relays and other electric wire in the electric system.

Technical Information

- Rated Insulation voltage(U_i) 500V;
- Conventional thermal current(I_n) 16A;
- Rated operational voltage (U_e) AC230V;
- Rated operational current(I_e) 6A;
- Usage category AC-14;
- Protection degree IP 20;
- Mechanical endurance 250000 times;
- Electrical endurance 100000 times;

Dimensions(mm)
